STAIR-LIFTS

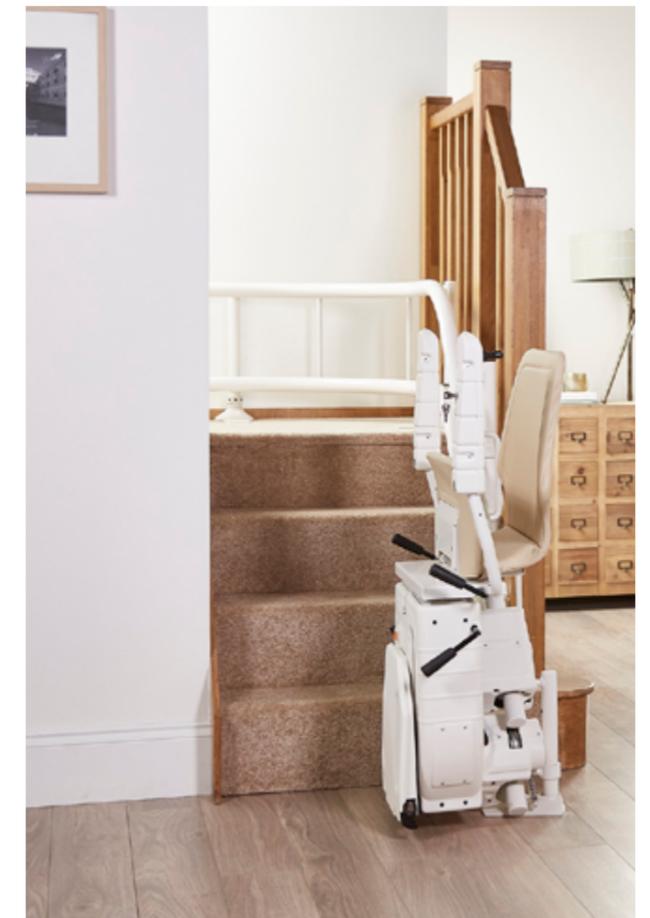

CURVED STAIRCASES

Tailor made to suit any type of staircase, it can be anchored into the wall side or into the ramp.

Ideal for both indoor and outdoor staircases, your CMAlifts stair-lift perfectly fits into your staircase, leaving room for other people.

The Twin Tube steel rail is tailor made to perfectly fit into your staircase.

While charging the batteries, the seat can be left in the curved area of the staircase. The seat rotates at the top of the staircase to facilitate users' boarding, and folds completely to obstruct as little as possible on the stairs.

DESIGN AND PRODUCTION

Your new Infinity stair-lift is designed with the latest 3D CAD systems, which means your stair-lift is designed to meet your needs.

Our stair-lifts are manufactured in a customized industrial process.

The Infinity stair-lift is safe, reliable and silent. It has no equal on the market. For this reason, CMAlifts chooses Bespoke Infinity.

The stair-lifts manufactured on behalf of CMAlifts are produced with high quality materials. Our stair-lift is the quietest and lightest in the world. The seat is removable and is covered in real leather. Come and try it at our warehouse.

Using the two standard infrared remote control units, supplied with the stair-lift, you can call the lift-seat to the floor needed.

TRACTION

Rack and pinion drive system in steel

MOTOR

24v DC

TORSION

Max 60nw

SPEED

0.15 m/sec adjustable

ELECTRICAL ABSORPTION

14A

BRAKE

24v DC

SAFETY

Safety gear

ADAPTOR

Self-supporting on nylon wheels

TROLLEY

manufacturing

RAIL

Twin rail in steel

SECURITY KEY

CHARGER

On board battery and charger points

STANDARD REGULATIONS

EN81: 40

THE WORLD'S MOST INNOVATIVE STAIR-LIFT FOR 25 YEARS

Ergonomic, flexible joystick - Light and intuitive, the joystick is also designed for people with reduced mobility of their hands.

Safety key - To prevent unintended use or accidental starting.

Seat belt - Simple to use, the seat belt offers comfort and standard safety.

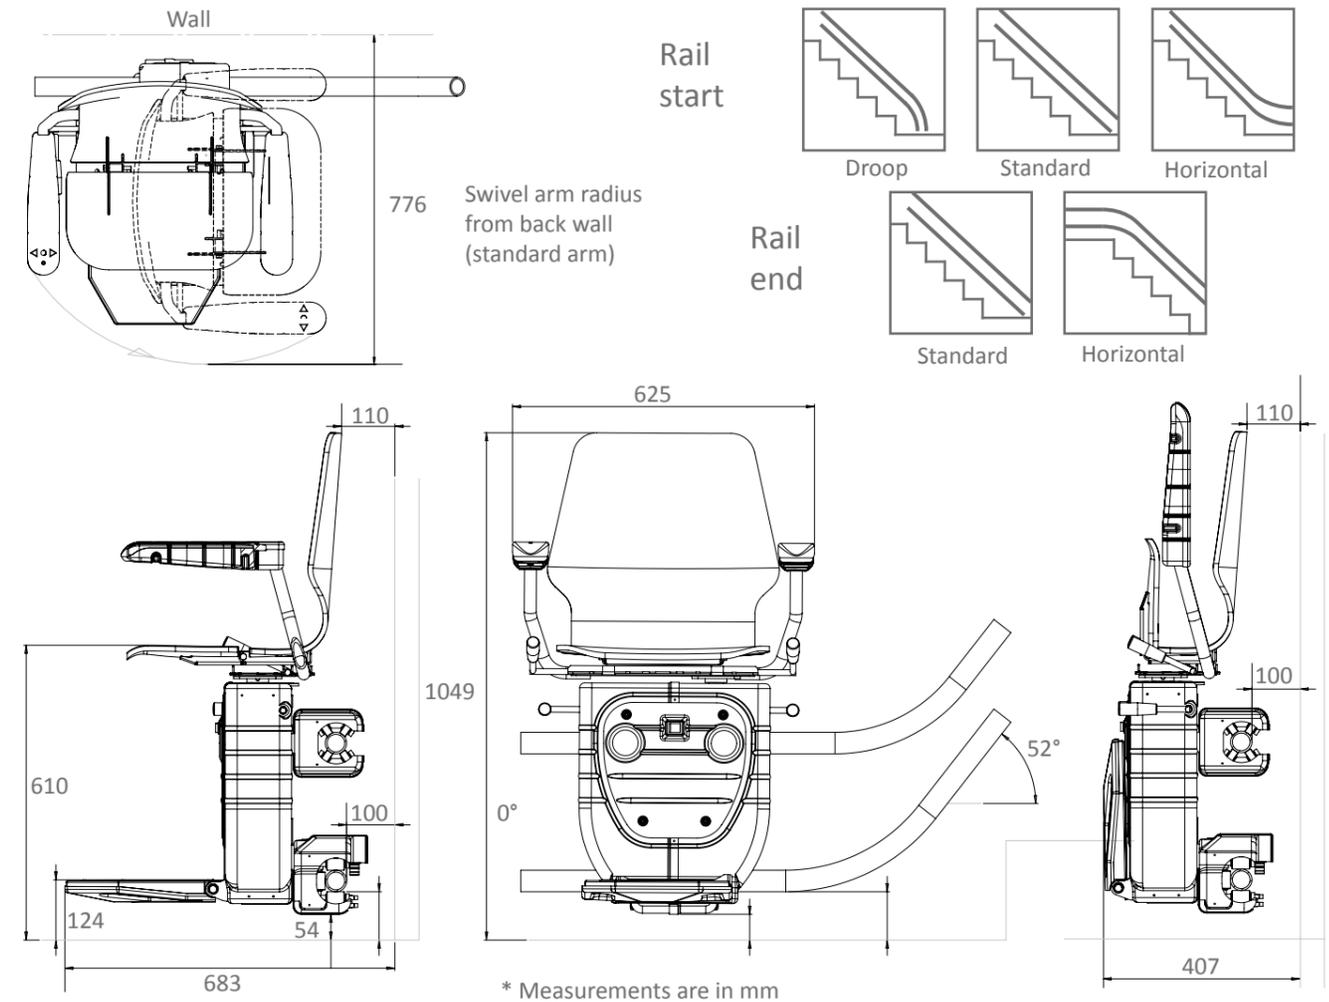

Safety Sensors - The stair-lift stops immediately in the event of a collision with obstacles or objects on the stairs.

Battery operated - You can use it even in case of power failure. The charge is automatic, so it is always ready to use.

Seat comfort - Comfortable, removable and washable, the seat is designed for extreme comfort.

Swivel Seat - The levers on both sides allow the seat to swivel in order to get on/off the stair-lift. Also available motorized.

Footrest - For your safety, it is foldable, thanks to the levers on the sides of the stair-lift. Also available motorized.

SEAT BELT	Waist rewinding	✓	
RAIL COLOUR	RAL 9010 - Optional RAL of your choice	RAL 9010	✓
MANUAL OPERATION	YES	✓	

CMAlifts, set up in 2001 with a far sighted vision by the brothers Giulio and Gaetano Caputo, is today a leading international company in the design, manufacturing and assembly of lifts and elevators for private and industrial use.

It is a company that has preserved a craftsmanship heart, combining futuristic high-tech solutions with the inventiveness of its employees.

CMAlifts' target market knows no boundaries. Deeply rooted in the Italian market, CMAlifts is also a protagonist in the Balkans and Northern Europe. Thanks to an increasingly widespread sectorial trade fair attendance, clients' orders from abroad have multiplied as time has gone by.

Standing strong with extensive experience, CMAlifts carefully and professionally handles all technical and design demands. The company's work method is based on the principles of professionalism and reliability, which characterize all phases from planning to production, from order management to on site delivery. No aspect of the business is handed over to external workforce (including logistics).
